ABOUT ME

I became interested in coding at the beginning of 2019, and since then I have independently studied coding and, in addition, I have done all kinds of projects. I immediately became interested in machine learning and that's how I drifted to study a lot of back-end-style programming, but I've also done several front-end-style projects. I am very interested in learning new things about programming, especially as my long career is just beginning. You could describe me as a straight-backed, fair guy. I'm able to stick to schedules and to maintain a professional relationship with everyone. I have high ambitions, and I strive to learn more.

EDUCATION

10.08.2016 – 27.05.2019

Undergraduate degree in information and communication technology, Salpaus Education Centre

08.01.2020 – 20.02.2020

Artificial Intelligence, (advanced course) University of Oulu

EXPERIENCE

03.04.2017 – 31.05.2017

7Work learner, small machine, IT manager

13.11.2017 – 16.03.2018

Work learner, small machine, IT manager

During my working hours, I designed and created a website for the company, edited several videos and images, trained on using Photoshop for staff, and numerous other problem-solving tasks and documenting them.

18.03.2019 – 27.05.2019

Work learner, Salpaus- IT HelpDesk Education Centre

My duties included accepting customers both face-to-face and over the phone, locating and solving the problem and documenting this whole process. Guidance on the introduction of new equipment, etc.
